

MSUD gel

DESCRIPTION

Use under medical supervision. MSUD gel is an unflavored, powdered, leucine, isoleucine and valine free medical food, containing essential and non essential amino acids, carbohydrate, vitamins, minerals and trace elements.

INDICATIONS: Suitable from 1 year of age.

DOSAGE AND ADMINISTRATION

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

Each 24g packet of MSUD gel provides 10g of protein equivalent.

1. The daily protein requirement is given as MSUD gel.
2. Additional protein is provided from exchanges of natural protein, to provide leucine, isoleucine and valine in controlled amounts, which is essential for growth and development.
3. Foods high in carbohydrate and fat, but low in protein, should be provided to supply the remainder of the energy.

PREPARATION GUIDELINES

MSUD gel can be taken either as a gel or a low volume drink.

For gel:

- Step 1: Empty the contents of the packet, plus ½ -1 FlavourPac packet if desired, into the beaker.
- Step 2: Add 30ml (1fl. oz.) of cold water. Secure the lid and shake well for 10 seconds.
- Step 3: Leave to stand for 2 minutes, allowing a smooth gel to form. Consume from spoon.

For low volume drink:

- Step 1: Empty the contents of the packet, plus ½ -1 FlavourPac packet if desired, into the beaker.
- Step 2: Add approximately 80ml (approx. 3fl. oz.) of cold water. Secure the lid and shake well for 10 seconds.

Step 3: Drink immediately.

The product should ideally be freshly prepared and used immediately.

Water or permitted drinks should be taken after the MSUD gel.

STORAGE

Store in a cool, dry place.

Packets are designed for single use and should be used once opened.

PACK SIZE: 30 x 24g packets

WEIGHT: 720g e

SHELF LIFE: 18 months.

IMPORTANT NOTICE

Must only be given to patients with proven MSUD under strict medical supervision.

Suitable from 1 year of age.

Diet must be supplemented with natural protein, water and other nutrients in prescribed quantities to supply leucine, isoleucine, valine, fluid and general requirements.

Not for use as a sole source of nutrition.

Not for intravenous use.
